

Product Bulletin

To: All EFJohnson Customers, Dealers, and EFJohnson associates

Subject: Repeater Portfolio Update

EFJohnson has worked hard to build the finest line of products available in the industry. In this pursuit, we must from time to time discontinue some old tried and true products that have served you and us well.

The products listed below are being retired from our portfolio. Many of these conventional repeaters are replaced by our 2600 series analog / digital conventional repeaters, with model numbers listed where applicable in the listing. In addition, EFJohnson continues to offer the 3800 series P25 trunked repeaters.

Effective immediately, the following EFJohnson trusted and hardworking analog repeaters will no longer be available to purchase. Technical Support of these products will continue to be provided.

Discontinued products:

P/N	Description
<i>VHF Repeaters:</i>	
242-2031-313	UNIV STATION 110W 12.5/25KHZ 150-178 MHZ
242-2031-313D	UNIV STATION 110W 150-178 MHZ DIGITAL UPGRADABLE
242-2031-373	UNIV BASE STATION 110 W 150-178 MHZ
242-2031-373D	UNIV BASE STATION 110 W 150-178 DIGITAL UPGRADABLE
242-2031-413	COMMUNITY RPTR 110W 150-178 MHZ
242-2031-413D	COMMUNITY RPTR 110 W 150-178 DIGITAL UPGRADABLE
242-2031-473	COMMUNITY BASE STATION 110W 150-178 MHZ
242-2031-473D	COMMUNITY BASE 110 W 150-178 DIGITAL UPGRADABLE

Current replacements for VHF conventional repeaters are:

242-2621-xxx (132-150 MHz)

242-2631-xxx (150-178 MHz)

Discontinued products (continued):
