---

*Notes:*

If you write a profile into a radio with PC Configure version 1.22.0.0 and then try to read the file with an earlier version of PC Configure, you may get a "List Error", or "Index Out of Bounds" or "Communication Error" message.

You have a choice at this point to reprogram the radio with the earlier version of PC Configure or move on from the earlier version to PC Configure 1.22.0.0 permanently.

If you would like a copy of this software, please contact Sue Baldini at 800-328-3911, extension 6970.
