KENWOOD

P25 Mission Critical

TK-5730/5830/5930

VHF • UHF • 700/800 MHz • P25 PHASE 1 & 2 • FM ANALOG

Round-the-clock public safety operations can be extremely demanding for both personnel and equipment. The reliable TK-5x30 mobile radios offer clear mission critical communications for police, fire and EMS.

FEATURES

- Digital operation in P25 Phase 1 & 2
- P25 Phase 1 Conventional/Trunked Operation (standard)
- Mixed Digital, FM Analog Operation allows intelligent migration in mixed sites & with digital radios in other sites
- Large, color LCD display: Full Featured 2.75" (400 x 240 pixels); Basic - 2.55" (422 x 154 pixels)
- · Easy to follow GUI & Multi-line Text
- Dual Remote Control Head Option & Multi RF Deck Options
- · Built-In GPS Receiver for effective fleet management
- Bluetooth® Module built-in for hands-free operation
- Active Noise Cancelling utilizes built-in DSP with 2 microphones for suppression of ambient noise (dual-mic)
- IP54/55 and MIL-STD-810 C/D/E/F/G
- Maximum of 4,000 CH/Radio capacity, 512 CH/Zone, 128 Zones
- DB-25 Accessory Connector

FM MODES - GENERAL

- Conventional & LTR Zones
- MDC-1200: PTT ID ANI / Caller ID Display, Emergency, Radio Check / Inhibit
- QT/DQT & Two-Tone

Full Featured Control Head -

DIGITAL - P25 MODE

- P25 Phase 1 Conventional/Trunked Operation (standard)
- P25 Phase 2 Trunked Operation
- AMBE+2™ Enhanced Vocoder
- Talk Group ID Lists
- · Individual ID Lists
- Caller ID Display
- Remote Monitor/Remote Check
- Radio Inhibit
- Encryption Key Zeroize & Retention
- P25 GPS Location
- P25 Over-the-Air-Rekeying
- Over-the-Air Programming¹

MULTIPLE CONFIGURATIONS (OPTION)

The TK-5x30 series allows users to create a variety of configurations to suit different requirements by combining different options.

- Single Remote Control Head/Single RF Deck: Mobile is controlled by a remote control head.
- Single Remote Control Head/Multi RF Decks: Operate multiple (up to 3) radio decks from single control head.
- Dual Remote Control Heads/Single RF Deck: One controller can be mounted on the dashboard with the other control head remotely mounted (such as the back of an ambulance or fire apparatus).
- **Dual Remote Control Heads/Multi RF Decks:** This adds the convenience of a dual control head to the above configuration so 2 operators can control up to 3 radios from separate control heads.

ACCESSORIES

Complete line of accessories including microphones, speakers & antennas. Download the accessory catalog at www.efjohnson.com/products/accessories.

Radio - Base Model

Hands-free operation

To promote driver safety and meet hands-free regulations in certain regions, TK--5x30 series mobile offers external microphone and PTT as options.

NOTE: Connecting to the radio via DB25 terminal on backside of RF Deck or via optional KCT-72 "Connection Cable" on backside of KCH-19M and KCH-20R*.

KCT-73MIC is not compatible with other NX/TK-mobile radios.

*Available in 2015 3Q

e with a commercial item of tape.

-- IMPORTANT NOTES --

Encryption modules, key loaders and radios containing encryption are export controlled by the U.S. Department of Commerce Bureau of Industry & Security EAR regulations and may either require an Export License, are eligible for a License Exception (ENC) or are exportable with No License Required (NLR) depending on the country, the consignee and the intended use. High level encryption is a special commodity that may require an export license to most countries. See www.bis.gov for more information regarding export regulations. DO NOT SHIP encryption items outside the U.S. without proper DOC/BIS Export Licenses and/or compliances.

The following information may be requested to be submitted at time of order (this information must meet internal approvals prior to shipment even if being returned later:

a) Initial Destination: Initial delivery point if different from Ultimate Destination (customer distribution center, headquarters, dealership, manufacturer's representative)

- * Business/Agency Name:
- * Address:
- * Contact Person Name:
- * Contact Phone:
- b) Ultimate Destination: Final delivery point(s); deployment/distribution
- * Business/Agency Name:
- * Address:
- * Contact Person Name:
- * Contact Phone:

c) Intended Use of Radios: Law enforcement, security, operations, etc.

KWD-AE20 AES FIPS140-2 SCM, NIST Validation & Customer Shipping

A secure delivery method direct to the end user customer is required by the NIST AES FIPS 140-2 validation rules. For U.S. Federal Government entities the SCM must ship from Kenwood USA Corporation directly to the end user customer by a trusted carrier (FEDEX, UPS or a designated Kenwood USA Corporation employee); shipping/handling by a dealer or other entity is not acceptable. This may or may not be required by local/state government agencies or business/industrial users. Please check with the end use customer about their AES encryption handling requirements before ordering. Kenwood will not be responsible for shipments of KWD-AE20K modules to erroneous destinations specified on an order.
